

SystAG schließt sich dem sich erweiternden Neverfail Kanal an

Die Partnerschaft bringt Hochverfügbarkeitssoftware zu den Kunden

Metzingen/Frankfurt/Columbia (Maryland / USA), im September 2008. Die SystAG Gruppe und Neverfail haben heute ihre Partnerschaft angekündigt. Das Ziel ist es, Neverfails Hochverfügbarkeits- und Disaster Recovery Lösungen im deutschsprachigen Raum anzubieten. Die Produkte von Neverfail werden die Kunden der SystAG in die Lage versetzen, die Verfügbarkeit, den Betrieb, das Monitoring und die Servicefähigkeiten ihrer BlackBerry Enterprise Umgebungen zu verbessern.

Im Rahmen dieser Partnerschaft wird SystAG die Installation, den Service und den Vertrieb der Neverfail Produkte für Hochverfügbarkeitslösungen für den BlackBerry Enterprise Server übernehmen. SystAG bietet bereits heute den Kunden in Kooperation mit BoxTone deren technologisch beste Lösung für BlackBerry Monitoring und Support an.

„Der Abschluss des Partnervertrags mit der Neverfail Group in Frankfurt/Main dient dazu, unseren großen Kunden einen kompletten Service rund um ihre unternehmenskritische BlackBerry Installation zu geben“, formuliert Geschäftsführerin Karin Theis das Unternehmenskonzept für den Bereich Mobile der SystAG Gruppe mit Hauptsitz in Metzingen und Niederlassungen in der Schweiz und Österreich.

Neverfail sichert die gesamte Bandbreite von Windows basierten Applikationen wie Microsoft® Exchange, SharePoint®, SQL Server, File Server und IIS, BlackBerry Enterprise Server, VMware VirtualCenter, IBM® Lotus® Domino® und Captaris RightFax gegen Ausfälle ab. Die Neverfail Produkte können in physischen und virtuellen Umgebungen sowie über LAN oder WAN eingesetzt werden. Dies eröffnet den Kunden die Möglichkeit, ihren Secondary Server im Nachbarraum oder an einer beliebigen anderen Stelle auf der Welt zu platzieren.

BoxTone – ein Neverfail Global Partner – stellt für dieses wichtige Einsatzgebiet eine modulare plug-and-play Plattform bereit, die auf der patentierten SmartMP™ Kerntechnologie beruht. Dieses Konzept erlaubt einer IT Organisation, Herausforderungen des kritischen Einrichtungs-, Geräte-, Incident-, Service Desk, Problem- und Kapazitätsmanagement vom ersten Piloten bis zur organisationsweiten Smartphoneumgebung zu bewältigen.

"Ausfallzeiten sind teuer, unterbrechen die Verfügbarkeit und werden zunehmend inakzeptabel. Die SystAG ist ein weiteres Beispiel eines erfolgreichen Partners, der Neverfail wegen der Fähigkeit ausgewählt hat, ein unterbrechungsfreies und jederzeitiges Failover und Umschalten über LAN oder WAN zu vertreten; die Benutzer dauerhaft verbunden und produktiv halten," sagte Gisela Gierhardt, Country Manager für Neverfail in Deutschland. "Wir freuen uns, eine so angesehene Firma wie SystAG überzeugt zu haben, sich unserer wachsenden Liste von erfolgreichen Partnern anzuschließen. Wir erwarten uns viel davon, unsere Anstrengungen zu bündeln, den Nutzen unserer Hochverfügbarkeitslösungen zu unseren gemeinsamen Kunden zu bringen."

Über SystAG®

Die SystAG® Gruppe, im Jahr 1988 gegründet, hat ihren Hauptsitz in Metzingen bei Stuttgart und unterhält Niederlassungen in Hennef, Berlin, Frauenfeld (Schweiz) und in der Nähe von Villach (Österreich). Die SystAG Systemhaus GmbH ist einer der führenden deutschen RIM® Alliance Members. Seit dem Jahr 2002 haben die Mobile Experten der SystAG über 400 BlackBerry®

Enterprise Server Umgebungen für Deutschlands führende Netz-Anbieter Vodafone® and T-Mobile® installiert.

SystAG® sieht sich als Email Infrastrukturspezialist, der als IBM® Premier Business Partner und als Microsoft® Gold Certified Partner Alleinstellungsmerkmale aufweist.

Die SystAG® Project GmbH ist der einzige BoxTones® Händler im deutschsprachigen Mitteleuropa unter Einschluss von Deutschland, Österreich, der Schweiz und Südtirol. Mehr findet man unter www.mobile.systag.com oder www.systbox.com. SystBox ist das SystAG®'s Produkt für seine mobile gehostete BlackBerry® Lösung für IBM Lotus Domino® und MS Exchange® Mailboxen. SystAG®'s BlackBerry Zubehörshop erreicht man bei www.shop.systbox.com.

About Neverfail

Neverfail is a leading global software company providing affordable data protection, high availability, and disaster recovery solutions focused on keeping users productive. Press Release English Language Version

SystAG Joins Expanding Neverfail Channel

Partnership Brings Continuous Availability Software to Customers

Metzingen and Frankfurt, Germany and Columbia, Maryland – [Date] – SystAG Group and Neverfail today announced their partnership to deliver Neverfail's continuous availability and disaster recovery solutions to companies in Germany. Neverfail solutions will enable SystAG customers to extend the availability, management, monitoring and support capabilities of their BlackBerry® Enterprise Server deployments.

Under the partnership, SystAG will market, sell and install Neverfail's continuous availability solution for BlackBerry Enterprise Server. SystAG already offers its customers in partnership with BoxTone that company's best-in-class management and monitoring software.

"With this addition of Neverfail's solutions for the BlackBerry® platform, we are able to further extend our full-service approach for our clients and their enterprise critical environments," said Karin Theis, SystAG Group Managing Director Mobile Business.

Neverfail protects the widest range of Windows-based applications including Microsoft® Exchange, SharePoint®, SQL Server, File Server and IIS, BlackBerry Enterprise Server, VMware VirtualCenter, IBM® Lotus® Domino® and Captaris RightFax. Neverfail's products can be implemented in physical and virtual environments and over a LAN or WAN which offers businesses the ability to locate their secondary server in the next room or across the globe.

BoxTone – a Neverfail global partner -- brings to this important vendor ecosystem a plug-and-play modular platform built on the patented SmartMP™ technology core, enabling an IT organization to address critical provisioning, asset, incident, service desk, problem and capacity management challenges from initial pilot through enterprise-wide smartphone deployment.

"Downtime is expensive, disruptive and becoming unacceptable. SystAG is another example of a successful partner that has chosen Neverfail for our ability to provide immediate and non-disruptive failover and switchback over a LAN or WAN; keeping users continuously connected and productive," said Gisela Gierhardt, Country Manager for Neverfail in Germany. "We are excited to have a reputable company such as SystAG join our expanding list of successful partners, and look forward to combining our efforts to bring the benefits of our high availability solution to their customers."

About SystAG Group
